

The Average Home Could Have Over \$15,000 Worth of Valuable Electronics and Appliances... which are susceptible to the damaging effects of surges.

What is a Surge?

A surge is an electrical disturbance that travels through your AC Power, Telephone and Cable lines, potentially damaging home electronics and appliances.

Where Do Surges Come From?

- Lightning
- Utility disturbances
- Home appliances turning on/off

Complete Surge Protection for Your Home

Today's typical homeowner protects sensitive electronic equipment with the use of surge strips. Unfortunately, surge strips do not provide adequate protection.

Eaton provides a comprehensive product offering to protect your home electronics against surge events.

These products are tested to the highest industry standards for ultimate safety, and offer competitive warranties.

Complete Home Surge Protector

- **Externally** mounted to your breaker box
- Compatible with any manufacturer's breaker box
- Limited lifetime product warranty
- Connected equipment warranty

Complete Home Surge Circuit Breaker

- **Internally** mounted to your breaker box
- Recommended use with limited panel space
- Functional 2-pole circuit breaker
- 5-year limited product warranty
- Connected equipment warranty
